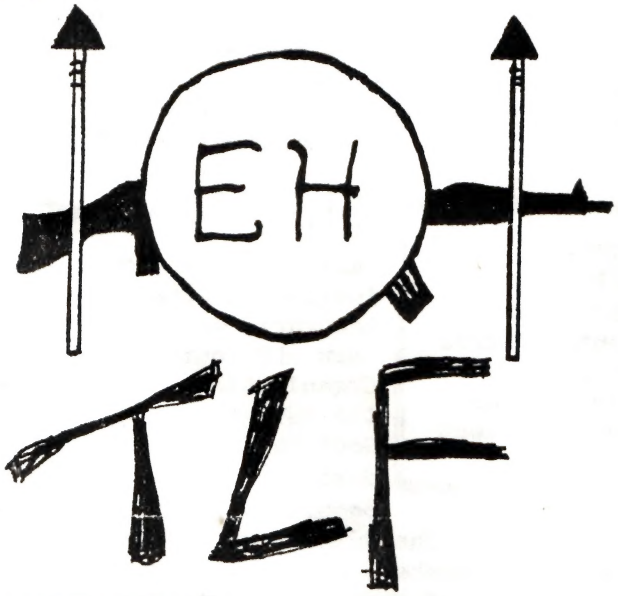
Canadians Abandon GLF

Canadian members of the GLF lashed out recently against what they perceive as Amerikan cultural imperialism in the ranks of the GLF itself.

"We demand Canadian Goof Autonomy," said one person. "You hosers don't seem to realize that we have our own style and our own language, and a right to assert it." Upon Canadian secession from the GLF, a new name was quickly chosen: the Toque Liberation Front (TLF). Amerikan anarchist symbols have also been rejected, with the TLF preferring the Canuck Circle EH.

But the problems don't stop here. Immediately after its formation, a civil war in the TLF broke out, spearheaded by a break-away splinter group--the Bob and Doug Mackenzie Honor Guard Youth Toques.

When asked why they felt pressed to work outside the TLF, one Youth Toque member explained, "Our goal is to have the coolest name of any radical Goof Group in the world, and everyone else can just take off!"



Letters to the AYF: Dear people, It's about time you got a page in the newspaper! The AYF page is the only thing I read, and it really makes my day, I must say. Not that the rest of the paper is bad, but I just don't understand it.

My only criticism is the latent specieism of your editors, who have failed to address the horrible existence of animal youth. Time and again, I wonder aloud to myself, "Will this issue mention the larval stage? Will the problems of pupae come up soon?" And yet, I see nothing. Can it be that the editors really don't know the terror of lying dormant in a chrysalis? Have none of you thought about talking to tadpoles, a youth group torn between two ecosystems? I find this omission quite distressing, and will personally come down and knock some heads if this doesn't change soon.

Notes of GLF Revolt

A.D.C. Action Proposal

The Anarchist Disco Club (ADC) is an affiliate of the GLF and supports its comrades in the struggle for Goof-Determination. Currently, the ADC is sending out a call for an armed occupation of K-TEL Records headquarters. This building will be held until the company agrees to release a boxed collection of the world's best Grind and Crust bands recording "Funkytown".

This action is slated for March 30, 1992, designated by the ADC as Andy Gibb Remembrance Day. Please circulate this proposal widely, because we don't know where K-TEL is located, and desperately need to find out.

!!! CHRIS GUNDERSON KIDNAPPED!!!

Just a few short days ago, in a bizarre and violent incident completely ignored by the mainstream fascistic press, activist Chris Gunderson was kidnapped by surprise ambush, held briefly in comfortable conditions, and unexplainedly let go.

This action was carried out by an extreme, militant wing of the GLF known as the Martyr Dan Tranquilized Guerilla Group. In keeping with this faction's extreme style of Goofism, no other information about the incident was made available.

The GLO, an umbrella organization encompassing most Goof groups, including the GLF and the MDTGG, has released a press statement disavowing any responsibility for the action. The GLO often claims it cannot control the activities of member groups, in an effort to retain credibility in the eyes of its opponents. The GLO said it hopes this action will not hamper negotiations for an independent Goof State in the Occupied Territories.

BABL DISBANDS

The members of BABL (Boring Anarchist Bowling League) have agreed in principle to dissolve their organization because they are too busy thinking up obscure words to ever actually meet. Unfortunately, however, the official announcement about the break-up has yet to appear.

Severe ideological conflicts about punctuation and sentence structure have meant a complete breakdown of consensus in drafting the proposal, despite 8 long weeks of continuous 24-hours-a-day discussions taking place in a small, hot, stuffy, locked room.

Love and Age Pledge Drive Update: The financially strapped, bankrupt Love and Age newspaper is down on its knees groveling after the latest word from the GLF. The extremist GLF Faction, Martyr Dan Tranquilized Guerilla Group has just pledged $3,000 a month towards the production of the paper, to be financed by GLF-MDTGG armed expropriations of RCP offices. Rumour has it that Bob Avekian has increased the number of bodyguards at each of his villas throughout Europe...

GLF Youth Unite!

All Anarchist Youth are invited to attend the inaugural meeting of a new GLF Youth Wing Organization. This group, the RGYB (Revolutionary Goof Youth Brigade) is designed to draw young people into the GLF cause by completely taking over all their independent thought processes. The RGYB draws on the experiences of the RCP and the Moonies for its inspiration. RGYB members must subsist on one small handful of MSG a day, and must memorize the little Goof Book of Chairman Martyr Dan Tranquilized. The leading cadre of the RGYB is the Jose Battalion. To Become an RGYB member, simply recite the following pledge 3 times daily:

Inside my school, it's lonely. Outisde my school, it's cozy and safe.
Inside my school, I feel regular. Outside my school, I feel like a star.
Inside my school, I see vandalism and pain. Outside my school, I see beauty and peace.
Inside my school, I hear noise and hard rock music. Outside my school, I hear beautiful music and the sounds of laughter.

This issue of Love and Age was produced by the impulsive sarcasm collective, and should not be taken too seriously.
